

Neuroscience: It's Mindboggling!

Neuroscience is the study of the brain and nervous system. The human brain is “the most sophisticated machine imaginable or unimaginable.” It is made of more than 100 billion nerve cells and each one forms as many as 10,000 connections with other neurons.

Visit us at www.dana.org/scouts and plan a fun-filled, educational activity for your next scout meeting. The downloadable materials are FREE and easy to use.

- ♦ Challenge your brain with exciting games and activities
- ♦ Download brain puzzles for all ages, coloring sheets and more!
- ♦ Learn the “Ten Ways You Can Be a Brain Advocate”

THE
DANA
FOUNDATION

Your gateway to responsible information about the brain

The Dana Foundation is a private philanthropic organization that supports brain research through grants and educates the public about the successes and potential of brain research. Dana produces free publications; coordinates the International Brain Awareness Week campaign; supports the Dana Alliances, a network of neuroscientists; and maintains a Web site, www.dana.org.
